

Fountains

We no longer install fountains.
 These fountains are supply only.
 Purchasers of Supply Only fountains are assumed to have at least basic building skills.
 Fountains will be dry assembled at our factory prior to supply for inspection. Our staff will be available to explain the construction sequence (at our yard only).
 Tools for cutting and drilling will be necessary (tools not supplied).
 A suitable imersion pump will also be required (see pump specification required for your fountain).
